

**Informal Review**

**When?/Which draft version?**

**Reviewed by whom?**

**Aim?**

Revision of Zero-Order Draft

Project team, authors and selected stakeholders

Coherency -> to **assure communication between chapters** in order to elaborate a **coherent product** and to **identify relevant cross-cutting issues**.

**Conclusions of the Informal Review** are implemented in the **1st Order Draft**. The Informal Review follows IPCC procedures. Evaluation of the AAR14 process (which did not apply the Informal Review) recommended it in further assessments as it helps establishing a consistent product from the outset.

-> Deadline of Informal Review: **21.04.2017**

**First Review**

**When?/Which draft version?**

**Reviewed by whom?**

**Aim?**

Revision of 1st Order Draft

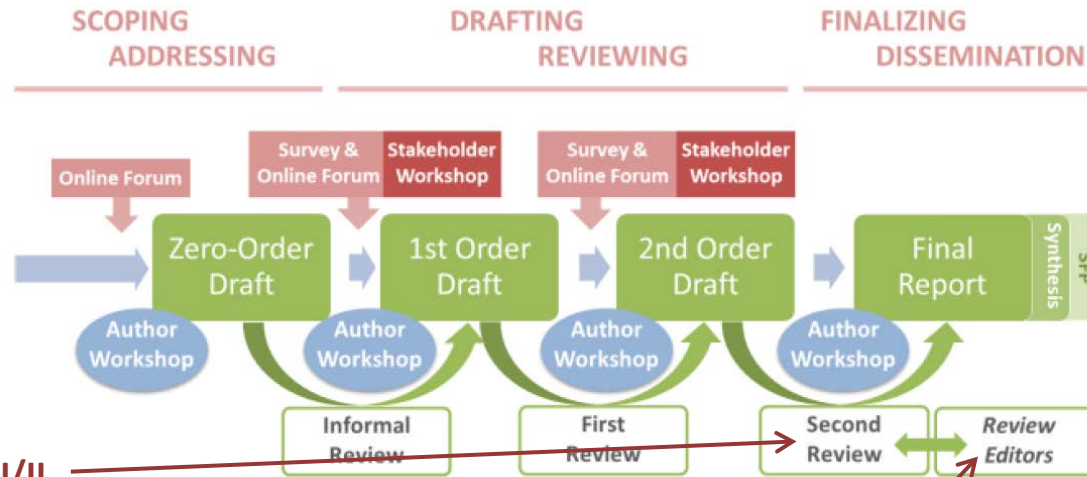

Scientific experts, but wide public might be involved, too.

Assures that relevant and current scientific topics are covered

**Comments from first review** are taken into account when preparing the **2nd Order Draft**.

-> Scientific Experts will be nominated by project team

-> passing on of draft version is confidential!

**Second Review II/II**

**When?/Which draft version?**

**Reviewed by whom?**

**Aim?**

Revision of 2nd Order

International experts and key stakeholders

Assures that relevant and current scientific topics are covered

**Comments from the second review** are taken into account when preparing the **final version of the report**.

-> International experts will be nominated by project team

-> **Second Review is accompanied by Review Editors**.

- Review Editors will be nominated by project team.
- 2 Review Editors per chapter
- RE review the implementation of comments into text -> in consultation with authors
- RE also assist regarding dealing with critical comments/sensitive issues
